"Education is the space where identity is melted." Education plays a very important role in our life. This is one of the most valuable acquisitions that a person can make in his life.

Following the world educational trend, leading Ukrainian universities offer training in English. Training in English makes it possible in the future to choose a place of work not only in Ukraine, but also abroad, because the language of international companies is English. In addition to the opportunity to get a good workplace, learning the language gives the joy of success and personal development, because the best music, films, and TV shows in the world are in English. Knowing this language will help you meet interesting people and make friends around the world.

The study of foreign languages, the cons do not really have, because it offers the widest opportunities for a person. For an applicant or a student the knowledge of a foreign language is primarily important in that it enables you to continue your education abroad in the future.

English language expands the range of your possibilities, develops memory, allows you to travel comfortably in the world. Knowledge of foreign languages is an opportunity to immerse yourself in another culture, expand your worldview and constant training of the mind. To speak different languages, it is required to keep in memory a vast stock of words, to be able to think in another language. All this develops intellect.

Knowledge of languages erases obstacles in communication - you can freely travel to foreign seminars and conferences, you will feel comfortable in another country. Since English is the mother tongue for many countries, many other peoples study it in the school curriculum. It is estimated that more than a billion people in the world speak English, at least at a basic level. All persons interested in studying at US universities should speak English or be prepared to take a test that confirms their fluency.

For immigrants to English-speaking countries that do not speak English this is a serious shortcoming in the economic plan. It is much more difficult to get a job, find a place to live and difficulties with everyday tasks, such as buying food, if you do not understand the language.

That's why learning in English is an invaluable opportunity to gain knowledge and experience that you cannot get by doing online or individually with a tutor. Team spirit and rivalry predispose to the absorption of information, and helps to raise the level of the English language most productively.
