Ресторанний бізнес розвивається з неймовірною швидкістю, споживача вже не вразить смачною їжею та напоями, треба подавати не тільки страви, але і атмосферу, добрий настрій, комфорт. Споживачі готові платити великі кошти за дизайн інтер'єру, подачу та оформлення страви, за професійні вміння обслуговуючого персоналу, тому і створюються ресторани для заможних клієнтів.

A restaurant is an establishment which prepares and serves food and drink to customers in return for money, either paid before the meal, after the meal, or with a running tab. Restaurants are the most profitable business, it is in line with the sale of oil, real estate and gold. People spend \$ 1,000 billion (or rather - 1.5-2 trillion dollars a year) for meals in restaurants. Most of the money is concentrated in the U.S., less in Europe and Asia.

Dining is an experience that one enjoys for more than just the benefits of sustaining your body. Visiting one of the most expensive restaurants in the world gives one a true culinary encounter. Costly delicacies at an expensive restaurant can inflate a meal's total price to proportions larger than the weekly salary of some people.

To produce the most expensive restaurants Top of the world were taken 25 cities outside the United States and conducted a survey with the help of a special service.

If the hunger in your belly and the cash in your wallet are both the appropriate size, you could dine in one of the 10 of the most expensive restaurants in the world. The amounts which will be announced below are either the average price for a meal for one person, or a fixed price specified in the menu.

Of course, all prices are in U.S. dollars.

It is about the food they cook that makes it so expensive. For most of the restaurants it is just the environment and ambience they offer. They charge you for sitting at their restaurant, not for eating their food per say so high-priced meals are a nice cover up.
